## **TITAN's renewed FTSE4Good Index Series inclusion confirms continued sustainability leadership**

TITAN Group announces it has been included in the FTSE4Good Index Series. Created by the global index and data provider FTSE Russell, the FTSE4Good Index Series is designed to measure the performance of companies demonstrating strong Environmental, Social and Governance (ESG) practices. The FTSE4Good indexes are used by a wide variety of market participants to create and assess responsible investment funds and other products. FTSE Russell evaluations are based on performance in areas such as Corporate Governance, Health & Safety, Anti-Corruption and Climate Change. Businesses included in the FTSE4Good Index Series meet a variety of environmental, social and governance criteria.

Leonidas Canellopoulos, Chief Innovation and Sustainability Officer, said: *"This recognition adds to TITAN's growing track record of sustainability leadership. It comes alongside our A score from CDP, inclusion on TIME's list of the World's Most Sustainable Companies, and recognition as a Climate Leader by the Financial Times. It shows market confidence in our ESG performance and highlights our value-creating decarbonization initiatives, aligned with the TITAN Forward 2029 strategy and our long-term commitment to responsible growth."*

TITAN's inclusion for a second consecutive year follows a further improvement in its ESG performance, with an FTSE Russell score of 4.2, up from 3.9 in the previous year, and a ranking percentile increase to 94 from 87, highlighting continued progress across key sustainability dimensions.

Inclusion in the FTSE4Good Index Series confirms TITAN's continued leadership in sustainability, embedded at the core of its business strategy and grounded in a robust ESG framework and actionable targets. It reinforces the Group's long-term commitment to responsible growth, transparent governance, and value creation, while strengthening its appeal to ESG-focused global investors.
